Outside Activities

Summary

The university’s policy on employees on participating in outside activities, specifically consulting and political participation.

Purpose

To provide guidance to employees on participating in outside activities, specifically consulting and political participation.

Policy

Any outside occupation, pursuit, or endeavor that interferes with the regular and punctual performance of duties is discouraged. If outside activities interfere with regular work attendance or quality of work, employment could be terminated. Before considering self-employment, salaried work, or accepted positions of responsibility outside the University, employees should discuss plans with their supervisor to determine if such activities might interfere with or be in conflict with University employment. Approval of the department head is required prior to making commitments for conduct of such activity.

It is inappropriate for University personnel to manage or enter political campaigns while on duty to perform services for the University, or to hold elective political office at the state or federal level while employed by the University.

Please see Board of Regents policy, or contact the Human Resources Department, for more information.
